

» TESTIMONIALS

"[My favorite was] working in the big studios with the professional instructors. All of the lunches were delicious as well."

QUINN | AUDIO ENGINEERING & PRODUCTION

"I liked making a theme for our party and learning about what it takes to be an event planner. I also liked talk with [Success Coach Manager] Matteo [Stewart] and other professionals about their jobs and stories..."

EMMA | EVENT & PROMOTIONS MANAGEMENT

"I really enjoyed being in the studio and working with the models. I loved the different outfits and the different atmospheres we created with the lighting. I liked the fact that they introduced us to what a professional work environment looks like and feels like."

KATE | DIGITAL PHOTOGRAPHY

"The best part was having the opportunity to look around at all of the creativity and productivity and get motivated and inspired. Everyone makes such awesome things!"

CHEYANNA | ANIMATION

DIGITAL BOOTCAMP

CENTRE FOR ARTS AND TECHNOLOGY

HERE'S WHY YOU SHOULD ATTEND:

1. **YOU** will work individually, or as a team, to create a portfolio piece with other students who share your passion and interests.
2. **YOU** will experience education that is an essential part of career planning for professions in the digital arts and entertainment industry.
3. **YOU** will increase your employability skills by experiencing an industry-like setting working with professionals, staff, and other students.
4. **YOU** will learn about industry standards that include software, equipment, and best practices.

HERE'S WHY YOU SHOULD NOT ATTEND:

1. **YOU** are not in grade 10, 11, or 12.
2. **YOU** were recently involved in a laboratory experiment giving you superhuman powers and your new destiny is to fight evil wherever it may lurk.
3. **YOU** are a vampire. Bootcamp takes place during the day which means you'll either be sleeping or sparkling like a thousand diamonds. Both unacceptable.
4. **YOU**...are...umm... There are no other reasons!

HOW TO APPLY

REGISTER ONLINE AT
www.digitalartschool.com/bootcamp

The application deadline is Feb 28, 2019. Register early to qualify for the discounted rate.

A non-refundable 'early bird' registration fee of \$199 (\$225 after Dec 31, 2018) and a completed application form must be received by the school in order to reserve a mission.

Missions are reserved on a first-come, first served basis with first priority given to Grade 11 & 12 applicants. The application fee covers the cost of mission materials and a Bootcamp Survival Kit.

ANIMATION

GET ANIMATED

Giving life to something has never been so rewarding. Create the illusion through character animation! Based on the fundamental principles of animation, this intensive workshop will ground you in the creative and technical process of character animation. Working in a 2D drawing and 3D software platform, you will create the illusion of life through the animation of different objects and characters. Learn the process of a real animation production studio and open yourself to a new and rewarding career.

Mission Outcome:

- A fundamental understanding of animation principles and animated processes in both 2D and 3D pipeline
- Short demo reel showcasing all of your 2D and 3D animation

AUDIO ENGINEERING & PRODUCTION

DJ SAMPLER

Learn the basics of song creation and production, get hands on training on how to DJ, and then perform a set live.

Mission Outcome:

- Ableton live basics
- Sound design & production
- Mixing and sound manipulation
- DJing
- Beat matching and transitions

DIGITAL FILMMAKING

MAKE A FILM

From creative beginning and script formation, to pre-production and post-production, you will play a key role in the creation of a short film. This introduction to digital filmmaking will test your teamwork, creativity and skills that will ultimately leave you with a 5-10 minute short narrative film.

Mission Outcome:

- Your short film masterpiece

DIGITAL PHOTOGRAPHY

THE PERFECT PHOTOGRAPH

Taking just the right photograph requires a highly trained operative. During this mission, learn how to prepare, capture, and finish off the ideal picture. Teaching technical elements, design concepts, and computer-aided finesse, this workshop will turn you into a camera-wielding wonder!

Whether taking a casual portrait, or composing a conceptual masterpiece, learn all of the tricks to compiling a work of art through the lens. This mission is made for eager shutterbugs with an eye for the still shot that want to challenge themselves to capture the unspoiled moment in a distinctive way.

Mission Outcome:

- A series of pictures that can be framed and hung at home
- A new-found passion that will bring a student's photograph to life

EVENT & PROMOTIONS MANAGEMENT

PARTY!

Event planners are not made...they're born. They demonstrate tenacity and perseverance when most of us would have given up...they get the job done and they do it right, because when planning events there are no second chances. Take this opportunity to determine if you are up for the job of Event and Promotions Manager. In this mission you will help to plan a major event for your fellow Bootcampers - up to 60 people!

Your task will be to help plan and facilitate the amazing after-party our bootcamps are so famous for, bring it all together, and bring down the roof while you're at it.

You will organize an event that brings new music production, graphic design, photography, and more together under one tent. Then if all goes according to plan you get to enjoy the party you created.

Mission Outcome:

- You will learn the anatomy of a major event from the inside out!
- Develop the event site
- Provide the event infrastructure

GRAPHIC DESIGN & WEB DEVELOPMENT

BRAND ME!

Sample the design industry's standard – Adobe Suite – by creating your very own branding package complete with logo, business card, and a personal website to promote yourself. You will learn how to incorporate text, images, and other design elements into your work using Photoshop, Illustrator, and InDesign – and then show your work off in your very own blog!

Mission Outcome:

- A new-found passion that will bring students imagination to life
- Basic to intermediate skills in Adobe Photoshop, Illustrator, and InDesign

INTERIOR DESIGN

DOORWAY

Are you creative and always thinking of ways to change the space you live in? Do you notice details in architecture or in interior spaces in magazines, on tv and online? "Unlock" your creative and problem solving abilities in this mission:

1. Colour Your World: investigate how colour affects your world, your preferences and you.
2. Spaces for Others: Using 3D software, solve and plan an interior space and see how fun and creative designing for other can be.
3. Distorting Space: Using a 3D physical model, discover how interior designers use the elements and principles of design to manipulate our perception of space.

Mission Outcome:

- You will understand the difference between Interior Design and Interior Decoration.
- You will create a story board which reflects your colour preferences, your personality and life.
- You will design and create an internet café for a youth hostel using the 3D software - Sketchup.
- You will build a physical model to explore how to manipulate our perception of space.

NETWORK SECURITY SPECIALIST

COUNTER HACKING OPERATIVE

Can you text, tweet, facebook, rebuild your laptop, program the PVR, and chew gum all at the same time? Are you a super tech-savvy operative looking to put your hacking skills to work for the greater good of mankind? Then the Network Security Mission is for YOU.

Individuals undertaking this mission will be trained as Counter Hacking Operatives who will be able to stay one step ahead of the enemy. Operatives will get hands-on experience surveying the techniques of forensic investigation on computer crimes and stop hackers from stealing personal/corporate information. Fatigues optional.

Mission Outcome:

- An appreciation for security and forensics in IT
- Hands-on experience on protecting your computer/network from Hackers
- Unique knowledge of the various areas of IT security and fighting back techniques

VETERINARY HOSPITAL ASSISTANT

ANIMAL HEALTH

Step into the fascinating world of animal health! During this mission you will learn fundamental anatomy and physiology, proper handling techniques, and basic laboratory procedures. Become one with a stethoscope and learn how to do simple health checks on your furry friends.

Mission Outcome:

- Fundamental Animal Health Techniques
- Discover the many different career paths available to Veterinary Hospital Assistants
