MAKE PASSION
YOUR PROFESSION
For over 39 years, we’ve been helping bridge the gap between students like yourself and your chosen professions. Centre for Arts and Technology’s Kelowna campus and its diverse catalogue of programs have been recognized as a top school in the fields of filmmaking, animation, audio engineering, interior design, photography, graphic design and network security.

Centre for Arts and Technology falls under the governing body of the Private Training Institutions Branch in the province of BC. The Agency is given its authority by the Province of British Columbia, Ministry of Advanced Education and Labour Market Development. The Private Training Institutions Branch (PTIB) of the Ministry of Advanced Education administers the Private Training Act and associated regulations. We abide by all regulatory standards in order to ensure students receive the highest quality post-secondary education. The Centre is also designated by BC Education Quality Assurance. EQA is a quality assurance designation that identifies and promotes public and private post-secondary institutions that have met or exceeded government recognized quality assurance standards.

**PROGRAMS:**
- 2D Animation & Digital Art
- 3D Animation
- Audio Engineering & Production
- Audio Engineering Fundamentals
- Electronic Music Production
- Electronic Music Fundamentals
- Digital Filmmaking
- Digital Photography
- Graphic Design & Web Development
- Graphic & Digital Design
- Advanced Interior Design & Technology
- Interior Design & Technology
- Network Administrator Specialist
- Network Security Specialist
- Veterinary Hospital Assistant
“I had a marvelous experience during my time as an International Student at Centre for Arts and Technology. Sometimes, students in other institutes do not get personal attention in improving their weaknesses, but at Centre for Arts and Technology, every staff member gives their full attention to the students and assists them with personal growth while pushing the students to establish independent work habits. Overall, CAT’s focus on career growth provided me a great experience, which I have never received in all my other previous education experiences.”

Simarjot Kaur
Network Security Specialist Graduate

“I signed a contract for a full-time graphic design position before I had even graduated. I took on tutoring, and becoming a teaching assistant to the program, as well as took on many freelance projects. I am now in the work force doing what I love, and I have honestly been able to say that I feel like I do not work. I just create - and that is what I went to CATO for. It was life changing, and the best decision I have ever made”

Nasthsha Diiuorio
Graphic Digital Design Graduate

“Surround yourself with like minded people, lose the unnecessary distractions and be proactive, don’t wait for opportunities, make them. It won’t be easy and if it is it won’t last so work hard, it will pay off. Also don’t be scared to take a job or work on a film that isn’t your dream project. Take it as a challenge to make a dull thing amazing. I like to use the analogy of taking someone like Steven Spielberg and getting them to make an infomercial. You can bet that would be the most bad ass infomercial you’ve ever seen! If you are passionate and do good work people will notice.”

Thomas Bowerbank
Digital Filmmaking Graduate

"CAT IS MY SCHOOL"
"NETWORK SECURITY IS MY PASSION"

"SURROUND YOURSELF WITH LIKE MINDED PEOPLE, LOSE THE UNNECESSARY DISTRACTIONS AND BE PROACTIVE, DON’T WAIT FOR OPPORTUNITIES, MAKE THEM. IT WOULDN’T BE EASY AND IF IT IS IT WOULDN’T LAST SO WORK HARD, IT WILL PAY OFF. ALSO DON’T BE SCARED TO TAKE A JOB OR WORK ON A FILM THAT ISN’T YOUR DREAM PROJECT. TAKE IT AS A CHALLENGE TO MAKE A DULL THING AMAZING. I LIKE TO USE THE ANALOGY OF TAKING SOMEONE LIKE STEVEN SPIELBERG AND GETTING THEM TO MAKE AN INFORMERCIAL. YOU CAN BET THAT WOULD BE THE MOST BAD ASS INFORMERCIAL YOU’VE EVER SEEN! IF YOU ARE PASSIONATE AND DO GOOD WORK PEOPLE WILL NOTICE.”

Thomas Bowerbank
Digital Filmmaking Graduate
WHY CHOOSE US?

WE’LL FEED YOUR PASSION

You’re going to soak up the learning at Centre for Arts and Technology. This is where you’ll be surrounded by other driven, creative people - just like you. You’ll work on your own, collaborate with a team and at the same time make each other the best you can be. You’ll feel you belong here.

All the while your mentors and instructors will include experts who have already proven themselves in their fields and who are ready to share their first-hand knowledge with you.

You’ll learn many insider secrets that normally only real-world experience can teach you. You’ll get a glimpse at what the actual industry expects of you and you’ll benefit from their mentoring and connections (and references!)

QUICK FACTS:

• Classroom sizes range from 6-21 students.
• We speak both Mac and PC and so will you.
• Today’s employers are not just looking for exceptional technical skills, but well-rounded team members and contributors. Our Professional Development Program means you’ll be both.
KELOWNA CAMPUS SNAPSHOT:
Our fifteen year old campus is centrally located in the Landmark Centre—a business and technology hub that serves the Okanagan Valley and beyond. Two contemporary digital recording studios with mix-to-picture surround-sound capability. Interior design, veterinary hospital assistant, and animation labs create an environment similar to the industry you will soon find yourself in. A newly renovated production studio for film and photography includes a lighting-grid and seamless walls. If your passion includes the sporty-outdoor life, our Kelowna location is for you! Located in the British Columbia interior, Kelowna is your year-round playground. Skiing, snowboarding, swimming, wakeboarding—this town has it all to keep you fit and busy. Add to that a vibrant cultural scene including museums, art galleries, theatre, ballet, and an active night life—plus the Okanagan Valley with its award-winning vineyards. What more could you want? There is no shortage of high-tech businesses either. Kelowna, or the "Silicon Vineyard" is home to world-famous animation companies like Disney Interactive Studios, Bardel Entertainment, and Yeti Farm Creative to name a few.

“Choosing CATO for 2D Animation was one of the best decisions of my life. CATO motivated me and pushed my potential as an artist through fun but challenging assignments using all the latest software. I met all my best friends there, some incredibly gifted artists, and teachers I now call colleagues and friends. CATO also gave me the tools and opportunity to land a job in a world class animation studio, Yeti Farm, by developing my professional skills along with my technical skills and putting me in contact with big names in the industry. Most importantly it let me realize the dream: building a successful career and life doing what I love.”

Paul Moser | 2D Animation & Digital Art Graduate
2D Animator at Yeti Farm Creative
YOUR PATH TO SUCCESS
You’ll reach your goals faster at Centre for Arts and Technology. Accelerated learning means you’ll be ready to take that job sooner. Unlike some schools that take summers off and spread programs over several years, we compress the timeline and keep the learning going. Yes, it’s intense, but students love the results.

Thanks to hands-on learning, you’ll build stronger skills, a deeper understanding of the material, and confidence in your abilities.

You’ll get to test drive and hone those skills through special projects and events, like film festivals, demo reel nights and more, that put you through real-world industry experiences.

These events, by the way, do more than showcase your work—they introduce you to actual members of your industry; the people who are doing the hiring!

YOUR SUCCESS
You won’t find another school that is as committed to your success as we are, both in and out of the classroom. Just look at the support you can count on:

OUR GUARANTEE:
We have every confidence in our programs and know that students who complete the highest-level Centre for Arts and Technology programs are job-ready. Students who graduate from the highest-level of a program area and have not found work in a “related industry” within 12 months of graduation, may return to take any other program of equal or lesser value offered at the Centre for free.

PERSONALIZED TUTORING:
As a Centre student, you will have access to peer tutoring, free of charge, 12 hours in your first quarter and 7 hours in each subsequent quarter.

PROFESSIONAL DEVELOPMENT PROGRAM:
True professionals have more than technical skills, they have the soft skills to help them stand out: exceptional communication, team-focus, a positive attitude, self-confidence, and adaptability. Employers are looking for people with these soft skills. You’ll get them, thanks to this program.

STUDENT ADVISING:
You and your fellow Centre students will have access to our Student Success staff who can provide a variety of services from career and personal guidance to employment opportunities and goal setting. Coupled with our Professional Development Program, you will have the support and guidance to become the best version of yourself and find continued growth and success after graduation.

GRADUATE ACCESS PROGRAM:
Need to polish up your portfolio or keep some skills sharp after you graduate? This program gives you three months of additional access to the facilities, faculty, Student Success, and career planning services.

QUICK FACTS:
- WORKSHOPS AND GUEST SPEAKERS:
Throughout the year we hold regular workshops and events that expose you to the latest news and development in your field, opinions from industry experts, and opportunities for your future. It’s all about keeping you connected and current.

- CANVAS™
Our CANVAS™ learning management system means classroom materials are available to you whenever and wherever you choose. You can access it online to submit assignments, talk to other students, and get personalized feedback from your instructors. All on your own computer.
Our Guarantee

Students who graduate from the highest-level of a program and who have not found work within 12-months of graduation may return to take any other program of equal or lesser value for free.

Ashley Ramsay
President and CEO Yeti Farm Creative

"We have built a reputation as a world class studio that is highly sought after for high quality children’s content, thanks to Centre for Arts and Technology’s graduates we hire every year!"

Graphic Design & Web Development

100% of April 2019 grads were working or self-employed within 3 months of graduation

Interior Design

100% of the 2017 and 2018 cohorts were employed within 3 months of graduation

MAKE PASSION YOUR PROFESSION
**FINANCIAL AID**

Are you financially ready for this next step toward your career? These are the things you need to consider:

**TUITION, FEES, BOOKS, AND SUPPLIES**

We tell you the total price for your program up-front, including all books and supplies, so you can be prepared.

**BURSARIES AND AWARDS**

Ask your Program Advisor about bursary opportunities that could help fund your education.

**STUDENT LOANS**

Programs taken at Centre for Arts and Technology qualify for student loans. Contact our Financial Advisors for more information.

**OTHER FINANCIAL ASSISTANCE**

You can apply with us to make regular payments instead of paying your tuition all at once.

**ADMISSIONS**

Eligibility for admission:

- You are eligible for admission if you have a high school diploma or equivalent, or are 19 years of age or older and are a Canadian citizen, landed immigrant, or an international student with a valid Student Visa. Please contact a Program Advisor for program-specific admission requirements.

**PROGRAM ADVISING**

Our team of Program Advisors exists with the sole purpose to help guide students in identifying their personal, academic, and professional goals. They are knowledgeable about the industries we train you for and will help you make an informed decision before you enroll.

Program Advisors can not only answer specific questions about our programs and courses, but are also available for in-person, telephone, or email consultations, as well as booking school tours or a class audit.

**TUITION**

Tuition information for particular programs or courses is available by speaking with one of our Program Advisors.

**APPLICATION PROCEDURE**

Complete instructions and detailed information about application fees and deposits can be found on the Centre’s application form at digitalartschool.com/apply-now.

**PROGRAM START DATES**

We are a year-round school with four start dates per year:

- January
- April
- July
- October

Please contact a Program Advisor for specific start dates as not all programs start each quarter.

**APPLICATION DEADLINES**

Although the Centre encourages applicants to submit applications a minimum of six weeks prior to program commencement, with permission, late applications may still be allowed. All applications received less than six weeks prior to program commencement require the tuition deposit paid in full as well as all other admissions requirements to be completed at the time of application.

**COPYRIGHT – WHAT’S YOURS IS YOURS...**

Students retain their intellectual property rights to all work they create while attending Centre for Arts and Technology. We do, however, retain the right to continually use student work for educational purposes as well as publish student materials for the purpose of promoting our school and our students through demonstration, exhibition, and advertising.

**ACCEPTANCE**

Students who meet our admissions requirements are notified within weeks of the school receiving a completed application package. Applicants who have not met the requirements for admission will be contacted by the Admissions Office at the Centre. Official application status will not be given over the telephone. Application status can fall under any of the three following headings:

- **Accepted:** A seat is reserved for the applicant pending payment of seat reservation deposit and completion of the registration procedure.
- **Conditionally accepted:** A seat is reserved for the applicant pending receipt of specified requirements.
- **Not accepted:** The applicant has not met the admission requirements or information requested has not been received.
“Centre for Arts and Technology is the one place where you will actually get one-on-one time with your instructors. It’s the only place where everyone is there to help and make this the best experience possible. If I were to go back in time, I would totally do it all over again. CAT is one big happy family and it was my pleasure to be a part of it!”

Nada Almessery
Interior Design Graduate

“MY overall experience at CATO was amazing. Everything from my peers in the curriculum to the teachers made my year and a half there an unforgettable experience. CATO offered me such a variety of skills that my resume stood out from other graphic designers. Never settle for just “good enough” and keep learning.”

Alanna O’Brien
Graphic Design & Web Development Graduate

“One of the strengths of the Professional Photography program offered at CATO is the quality and diversity of course content. This equates to a well-rounded, complete understanding of both the technical and creative facets that make photography so compelling and fulfilling. From learning the principles of camera operation, lighting essentials, post production, as well as each professional photographic category, students progress through learning the tools and thought process required to move from taking to making photographs.”

Ira Aikman
Digital Photography Graduate

STUDENT SUCCESS

Our Student Success Centre is a vital part of the culture and strength of our school. This department will support you as a student and an alumni, wherever you may be on your journey. The caring staff members in this department will work with you in both group and individual settings to identify both personal and professional goals and will assist in setting achievable milestones to get you there. This level of commitment starts prior to entrance and extends beyond graduation and will include: assisting you in the navigation of personal challenges, empowering you to develop your own personal attributes, sense of self and effective communication skills. Through group events, workshops, class time and one on one coaching, you will be given opportunities to connect with your fellow students, alumni and valuable industry members, all of which help to foster a strong sense of campus community.

Student Success supports all students and alumni, wherever they are at, to develop what it takes to achieve their highest potential.

WE DO THIS BY:

• Empowering the development of personal attributes, self awareness, and communication abilities needed to interact effectively and harmoniously with other people
• Assisting in the navigation of personal challenges
• Connecting students and alumni to industry
• Fostering a strong sense of community

“I THINK YOU GUYS NAILED IT. EFFECTIVE FOR MY LEARNING STYLE. I FEEL SO MUCH MORE CONFIDENT TO GO INTO INTERVIEWS.”

MIKAYLA NELSON  Veterinary Hospital Assistant Graduate

RANDAL IS A FANTASTIC INSTRUCTOR. HE IS GREAT AT ENGAGING THE STUDENTS AND CREATING AN ENVIRONMENT THAT IS NOT ONLY FUN, BUT GETS YOU THINKING. IT’S A PLEASURE TO ATTEND HIS CLASS.”

MR. ANDERSON  Digital Photography

“WE HAVE THE PLEASURE AND HONOR OF PROVIDING CONFIDENTIAL, PERSONALIZED SUPPORT TO OUR STUDENTS TO IMPROVE THE QUALITY OF THEIR LIVES SO THAT THEY MAY EXPERIENCE THE FULLEST PERSONAL GROWTH, AND ACADEMIC AND PROFESSIONAL SUCCESS.”
ANIMATION LAUNCH PAD

Looking for a career in the animation field? Nervous about submitting your portfolio for review? Would you like someone to critique your work? With the Animation Portfolio Launchpad, you can evolve your artistic abilities in a welcoming environment. Best of all, you will be given a preview of what awaits you in the animation program at Centre for Arts and Technology. If a career in the animation industry is what you desire, this is where it all begins.

WHAT WILL YOU DO?
• Perspective drawing
• Drawing from observation
• Rendering techniques for light/shadow
• Character design concepts
• Tips on presenting your work professionally

WHEN WILL YOU DO THIS?
April Quarter
July Quarter

WHERE WILL YOU DO THIS?
Kelowna Campus
Landmark 3 Technology Centre
Suite 100 - 1632 Dickson Ave., Kelowna, BC

HOW DO YOU REGISTER?
For more information and to register, go to digitalartschool.com/launchpad or call us at 1.866.866.2707
PROGRAMS

2D ANIMATION & DIGITAL ART
You will earn your 2D Animation & Digital Art Diploma in only 15-months. Better still, you will break into the job market with a professional portfolio and demo reel, showcasing your talent and your style to potential employers. A solid grasp of 2D Animation remains one of the key foundational skills many studios look for in hiring animators.

3D ANIMATION
The 24-month 3D Animation program gives you the hands-on training and experience you need to pursue your dream job in 3D animation. You will earn an Advanced Diploma in the latest animation techniques in an environment that is run like a fast-paced, real-world production studio.

AUDIO ENGINEERING & PRODUCTION
After earning your Advanced Diploma in Audio Engineering & Production in just 18-months, you could be at the helm of the soundboard for a worldwide concert tour, or recording sound in your own studios and production houses.

ELECTRONIC MUSIC PRODUCTION
The 12-month Electronic Music Production Diploma is an accelerated program offered through our Audio Engineering department. This program is tailor-made for anyone interested in audio and music production with a special focus on digital music production, recording, mixing, and arranging.

ELECTRONIC MUSIC FUNDAMENTALS
The 6-month Electronic Music Fundamentals Certificate program at Centre for Arts and Technology is designed to take you to the next level. You’ll learn the art of production, while discovering the entrepreneurial side of the music industry.

DIGITAL FILMMAKING
If you’ve always loved movies, and the idea of telling stories through the magic of filmmaking keeps you up at night, then the Digital Filmmaking program is for you. You have two options in launching your film career: A 12-month Digital Filmmaking Fundamentals Certificate program that will give you the foundation in all technical areas of filmmaking and an accelerated 18-month Diploma program that incorporates all of the technical aspects of filmmaking and the narrative pieces that ensure your success.

DIGITAL PHOTOGRAPHY
The 12-month Digital Photography Diploma program at Centre for Arts and Technology is designed to grow your skills, introduce you to new techniques, and prepare you to hit the ground running when you begin your career. Digital Photography offers several career paths, but many of our graduates go on to start their own photography businesses.

GRAPHIC & DIGITAL DESIGN
As a graduate of this 12-month Diploma program, you’ll be a master of graphic and digital design with a thorough knowledge of industry-standard software programs, and a solid background in the more important aspects of marketing, including proficiency in: Adobe Photoshop, Illustrator, InDesign, Acrobat—Brandishing—Typography—ActionScript—Adobe Dreamweaver, Flash, Premiere, After Effects.

GRAPHIC DESIGN & WEB DEVELOPMENT
Graphic Design & Web Development is an extremely well-rounded 18-month Advanced Diploma program that prepares you for a number of careers. Our graduates are highly sought after by potential employers because of their ability to multi-task in highly specialized areas.

INTERIOR DESIGN
Interior Designers create environments that bring beauty to everyday life, portray personalty, and add sophistication to any space. You have two options in launching your design career: An 18-month Interior Design & Technology Diploma program that will give you the foundation in all technical areas of interior design and an accelerated 24-month Diploma program that incorporates all of the technical aspects of design and hones the artistic pieces that will ensure your success.

NETWORK SECURITY SPECIALIST
This 12-month Diploma program has been developed by working professionals to give you a foundation in computer networking and administration skills to assist you in successfully launching your career in the IT industry. You will learn how to plan, create, implement, and manage network systems, as well as learn how to provide desktop/server support for your organization.

VETERINARY HOSPITAL ASSISTANT
The 9-month Veterinary Hospital Assistant Certificate program has always been a popular program at Centre for Arts and Technology. Graduates of the program become qualified ‘front-line’ Veterinary Hospital Assistants, and regularly find rewarding careers in a variety of animal care settings.

NETWORK ADMINISTRATOR SPECIALIST
This 18-month Diploma program starts with the 12-month Network Administrator Specialist program and adds on an additional 6-months of training where you will learn Advanced Network Systems, Computer Forensics for the First Responder, Enterprise Administration using Linux, Network Optimization and Monitoring, Encryption, Public Key Infrastructure Architecture and Administration, Hands-on Network Exploits, and Vulnerability and Penetration Testing.

GRAPHIC DESIGN & WEB DEVELOPMENT
Graphic Design & Web Development is an extremely well-rounded 18-month Advanced Diploma program that prepares you for a number of careers. Our graduates are highly sought after by potential employers because of their ability to multi-task in highly specialized areas.

INTERIOR DESIGN
Interior Designers create environments that bring beauty to everyday life, portray personality, and add sophistication to any space. You have two options in launching your design career: An 18-month Interior Design & Technology Diploma program that will give you the foundation in all technical areas of interior design and an accelerated 24-month Diploma program that incorporates all of the technical aspects of design and hones the artistic pieces that will ensure your success.

NETWORK SECURITY SPECIALIST
This 12-month Diploma program has been developed by working professionals to give you a foundation in computer networking and administration skills to assist you in successfully launching your career in the IT industry. HOW TO APPLY

VISIT digitalartschool.com TO GET STARTED

1. CHOOSE YOUR PROGRAMS

STEP ONE is picking what program and career speaks to you the most.

Our website is home to information about all of our programs:
digitalartschool.com/programs

2. CONTACT A PROGRAM ADVISOR

STEP TWO is speaking with a Program Advisor. Now that you have narrowed down your program of interest, the next step is to speak with your personal Program Advisor. Your Program Advisor will walk you through your program of choice, career outcomes, and assist you through each step of the application process.

Call: 1.866.860.2787 or Email: inquire@digitalartschool.com

3. APPLY ONLINE

STEP THREE is to visit digitalartschool.com/apply-now.

This online form has been set-up with the user in mind. No passwords to create, no long forms to download, and all the info is then delivered directly to your personal Program Advisor.

4. SUBMISSION OF YOUR PORTFOLIO AND REQUIRED DOCUMENTS

STEP FOUR is delivery of your supporting documents such as, reference letters, essay, and/or portfolio. Not all programs require a portfolio submission. Your personal Program Advisor will ensure you have all the info you need to become a successful applicant.
